

FMCN: An Example of How Hammerstone Institutional Forum will help you?

Timeline of Events on 12/09/2011:

- 1) A member points out the dip in FMCN at 10:55 a.m.
- 2) A member predicts another negative article on FMCN by MW at 10:56 a.m.
- 3) Jamie advises to buy the dip at 11:06 a.m and correctly predicts the intra-day bottom.
- 4) At 11:08 a.m. the MW report on FMCN is confirmed.
- 5) Stock keeps rallying and closes \$1.5 higher from where Jamie made the call.

THE CASE OF FMCN:

The above is an intra-day chart for the ticker FMCN. Members benefited from Jamie's prediction of a negative article from Muddy Water Research and then his timely call to buy the stock at the day's bottom. As this chart demonstrates, the stock closed almost \$1.5 (~7%) higher than where it traded at the time of the call. These types of useful calls occur on a regular in the Hammerstone chat.
